

This latest addition to the Lucy family of pillars is based on a modular format where the cabinet width increases in increments of 100 or 150mm. Six popular sizes are offered with the same material and paint choices as the Fortress pillars. Alternative specification products can be obtained either from the list below or via the Sales Department if a bespoke item is required.

Dimensions (mm)

Pillar size code	SL01	SL02	SL03	SL04	SL05	SL06
Height (H) above ground	800	950	1093	1100	1150	1150
